Federal Motor Carrier Safety Administration

Roadside Inspection

This module provides summarized data for five fiscal or calendar years including current year to date information on all roadside inspections conducted on motor carriers that transport property or passengers in interstate or intrastate commerce.

A roadside inspection is an examination of individual commercial motor vehicles and drivers by a Motor Carrier Safety Assistance Program (MCSAP) inspector to determine if they are in compliance with the Federal Motor Carrier Safety Regulations (FMCSRs) and/or Hazardous Materials Regulations (HMRs.) Serious violations result in the issuance of driver or vehicle OOS orders. These violations must be corrected before the affected driver or vehicle can return to service.

Summary of Roadside Inspections in Nevada

Roadside Inspection Activity (Nevada)	FY 2009		
	Fed	State	Total
Number of Inspections	203	32,096	32,299
I. Full	137	4,162	4,299
II. Walk-Around	11	19,509	19,520
III. Driver Only	0	8,248	8,248
IV. Special Study	0	11	11
V. Terminal	55	146	201
VI. Radioactive Materials	0	20	20
